EDUCATION

UT Coding Bootcamp	Full Stack Emphasis on Front End	Began August 2019 In Progress
The University of Texas at Austin	Bachelor of Arts, Government Minor: Chinese Overall GPA: 3.67 Honors	May 2017

EXPERIENCE

Battleground Texas - *Fellowship*; Austin, TX - Summer 2017

- Organized and executed various volunteer voter registration events across the county.
- Recruited volunteers over the phone, through email, and in person.
- Facilitated and lead successful volunteer teams and events.

ACADEMIC PROJECTS

MemeDream Full Stack Web App – Spring 2019

- Created a full stack web app from the ground up using technologies such as Express, Node.js, and Mocha.
- The web app communicates with a self-made API to allow the searching, creating, viewing, and deleting of memes (CRUD functionality).

Environmental Policy Analysis – *City of Austin* - Fall 2016

- Analyzed the contents of the Austin Master Plan for Zero Waste, the various alternatives introduced to achieve Zero Waste, and their effectiveness in achieving the goal of a green Austin.
- Researched and compared the policy alternatives in the Master Plan to those already implemented in various cities across the country, such as Portland, OR, to gauge their effectiveness if implemented in Austin.
- Recommended a set of potential policy alternatives to maximize waste diversion, and compared said alternatives and their projected outcomes amongst each other, ultimately reaching a single policy plan to recommend to the city government.
